

Welcome!

Thank you for choosing Avery Eye Clinic! We are committed to providing the best possible eye care. It is our pleasure to welcome you as a patient.

The following is some information about our practice and what to expect when you arrive. Please read this to ensure that your experience with us is professional, productive, and meets or exceeds your expectations.

WHAT TO BRING WITH YOU:

- Your insurance cards
- A valid photo ID
- Glasses or contact lenses, if you wear them
- Eyedrops, if you use them
- A list of any medications you are taking
- The forms in this packet, completed, signed, and dated.
- A referral, if needed by your insurance. Referrals may be faxed to our office prior to your appointment.
- A list of questions you may want to ask the doctor

ESTIMATED TIME OF YOUR VISIT

If this is your first time to our office, please allow up to three hours for your visit. Our doctors take pride in the thoroughness of their exams and will take the time to answer your questions. If you have another commitment scheduled on the same day as your visit with us, please leave sufficient time to safely get to your next scheduled activity. Also, consider that dilation (which can last up to six hours) can impair your driving ability. Most people can drive following dilation, but you may want to bring a driver if you have experienced problems driving after dilation in the past, or if your eyes have never been dilated.

FINANCIAL

The doctor is concerned with issues involving the health of your eyes and improved quality of life through vision health. Any questions you may have regarding our charges, payment for your services, or insurance billing should be directed to the front office staff prior to your visit.
